As to claims 1, 9, 17, 18, Someya discloses an electronic apparatus comprising: a display panel (21, Fig. 1); a lighting unit (20, Fig. 1) operable to light the display panel; a parameter adjusting unit (10, 11, 12, 17, 18, Fig. 1) operable to, with variation in a light amount of the lighting unit as a trigger (e.g. the backlight in high/low intensity), adjust a parameter (e.g. adjusting the color of the image data) participating in picture quality so as to conform the light amount, wherein the parameter participating in picture quality is color gain (see Figs. 2 and 3, and also see col. 4, lines 41-49); a signal correcting unit (10, 11, 12) operable to input a display signal and to correct picture quality of an input display signal in accordance with an adjusted parameter (e.g. adjust the color values in the LUT); and a driving unit to drive the display panel on the basis of a corrected display signal (col. 4, lines 41-49).

As to claims 2, 6, 10 and 14, Someya discloses the parameter includes information used for tone reproduction curve correction or a color gain adjustment (see Figs. 2 and 3).

Art Unit: 2674

As to claims 7, 15, Someya discloses that an area used to stored profile information (e.g. LUT, Fig. 1) about a device that has generated the display signal, wherein the signal correcting means corrects the display while taking this profile into account.

As to claims 8, 16, Someya discloses an operating means that accepts operation of a user, and control means for inputting operational information from the operating means (see Fig. 6), when operational information is not input continuously during a fixed time, the control means turns off the lighting means, and with this turn-off (e.g. BLACK state as shown in Fig. 6) as a trigger, cause the parameter adjusting means adjust the parameter participating in picture quality so as to conform al light state.

Allowable Subject Matter

3. Claims 3-5, 11-13 are allowed.

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period

Art Unit: 2674

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
